Re: *Ex Parte* Notice

WC Docket No. 05-337; CC Docket No. 96-45; WC Docket No. 06-122; CC
Docket No. 01-92; CC Docket No. 99-68; WC Docket No. 04-36; WT Docket
No. 10-208; CG Docket No. 10-213

Dear Ms. Dortch:

On Monday, January 31, 2011, Danielle Coffey, Telecommunications Industry Association (TIA); Rebecca Schwartz, TIA; Brian Scarpelli, TIA; and Jeffery Marks, Alcatel-Lucent met with Bradley Gillen, Legal Advisor, Office of Commissioner Meredith Atwell Baker.

During this meeting, TIA communicated support for the Commission's efforts to comprehensively reform the Universal Service Fund, urging an efficient and coordinated shift towards the support of broadband services as quickly as possible. TIA also noted support for the Commission's proposed Mobility Fund, which would serve as a critical step in bringing wireless broadband access to all areas of the country and would support economic recovery.

TIA also noted its support of comprehensive reform to the current intercarrier compensation regime. TIA encouraged adopting reforms that encourage innovative communications services and applications in a technology- and competitively-neutral fashion that will to foster more rapid deployment of broadband networks to unleash the benefits of evolving technologies.

TIA also discussed its activity in ensuring accessibility to telecommunications for disabled individuals. Recently, TIA has held extensive meetings with Commission staff on hearing aid compatibility, has facilitated a dialogue between TIA member companies and the disabled community, has worked to advance the Chairman's "Awards for

Advancement of Accessibility (AAA)” program, and is represented by a co-chair of the Emergency Access Advisory Committee (EAAC). TIA noted that it plans to continue its focus on access for disabled individuals, consistent with the goals of the Commission.

Lastly, TIA discussed its Innovation Agenda (appended to this Notice), a path conceived by TIA that, through light-touch, market-based, and technology neutral approaches to regulation, trade, research and development, tax policy, and education, will result in job growth – both within and outside the ICT sector – due to the criticality of the industry.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to the meeting attendees. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Danielle Coffey
